This Company is one of the oldest and most successful in the country, and its business is conducted exclusively for the benefit of persons insured. It has a large reserved guarantee cash capital, in addition to an ample fund, sufficient for re-insuring, if required, in the best companies, every risk they are now liable for. A dividend has just been declared for the last five years (in cash but in scrip) of 30 per cent., amounting to \$141,000. The Company has been enabled to do this by safe and profitable investments, limited expenditures, and care and vigilance in the conducting of its business.

The attention of insurers is respectfully drawn to the advantages presented by this Company among which the following are especially prominent. The entire surplus profit is divided among all members at the expiration of every period of five years: thus affording a certain rate of interest for the outlay of premium. Policies in this Company, after running a certain length of time, can be used, as collateral in the payment of a certain amount of premiums, an actual value having attached thereto by reason of its continuance. The rates of premium are as low as can be safely acted upon, and have been acknowledged by scientific persons to be a nearer approximation to the rate of the actual mortality in the United States, than those made from the table of mortality in any particular place. The risks are carefully selected and estimated.

Losses are promptly adjusted, and a liberal construction is put in favor of the assured, when his representations appear to have been honestly made; and the Company will always be desirous of recognizing the validity of a claim where it can be done consistently with their duty as trustees, in which character they are bound faithfully to act.

The Directors are required to be members of the Company and to give its business their personal attention; and bonds with sufficient sureties are given by its officers for the faithful performance of their duties.

Insurance may be effected, for the benefit of a married woman, beyond the reach of her husband's creditors. Creditors may insure the lives of debtors.

For five years, half the amount of the premium on policies for life, may be allowed to remain as a loan, the balance may be paid annually, semi-annually, or quarterly, in cash. Term policies may also be paid in annual, semi-annual, or quarterly instalments.

THE
Williamsburgh Grammar School,
FOR YOUNG GENTLEMEN,
 CORNER OF
FOURTH AND SOUTH-NINTH STREETS,

HAS BEEN IN SUCCESSFUL OPERATION SIX YEARS.

THE School is divided into Four Departments : PRIMARY, JUNIOR, SENIOR, and CLASSICAL, in order that Pupils may be received at ALL AGES, from five years old and upward, and fitted by a thorough course of education for COUNTING HOUSE or COLLEGE.

The teaching of LATIN and GREEK is based upon the system so successfully practised in Modern Languages. The study of ARITHMETIC, both Mental and Written, a thorough knowledge of which is indispensable in this business community, is conducted by ANALYSIS, a method which inculcates the principles of the science, facilitates the operation, and expands the mind at every step. In ORTHOGRAPHY and DEFINITIONS, "McELLOGOTT'S ANALYTICAL MANUAL" has been used with unprecedented success; and in the other studies such books have been selected as Experience has stamped with her seal of approval.

Among many other advantages which this Institute offers, are an efficient corps of Teachers, Weekly Scientific Lectures, a spacious and well ventilated building, and a large and open playground for recreation and exercise.

# YOUNG LADIES' COLLEGIATE INSTITUTE,

Corner of Fourth and South 9th Streets.

THIS INSTITUTION which has been in successful operation seven years, is pleasantly located for commanding the attention of our citizens. Its past success has been very satisfactory. The method of imparting instruction is too well known to the public to require any elucidation. It aims at imparting, not a superficial, but a solid and profound education to its pupils—and for this, it is well calculated. The professors are men of high literary and scientific attainments, and of great experience as instructors.

Weekly lectures are delivered on various topics of a literary and scientific nature, which are of inexpressible benefit, to those whose time and opportunity will not warrant their reading largely several works on the same. While the best means of acquiring a profound utilitarian education are afforded, the terms are not exorbitant; for while the tuition fees are sufficiently high, as they should be in any institution, they are not such as would exclude any, not even the least wealthy among our citizens,—our motto is—“*Let all be educated.*” Composition is a weekly exercise, in each of the Departments, and thus every facility is offered. French composition is a regular study. The language is daily taught and spoken by two native teachers. The public are invited to visit the institution, and examine pupils in French, also in their Drawing, Painting, and any branch there pursued. No charge is made for French, Drawing, Latin, Greek, Vocal Music and Needlework.

TERMS PER QUARTER IN ADVANCE.—Primary, \$4; Junior, \$6; Collegiate, \$10. Board \$40 per term at the House of the Principal, where the French language is spoken.

VISITORS.—Rev. Mr. Church, D. D., Rev. Mr. Baker, D. D. Rev. W. L. Roy, LL. D., Rev. J. B. Finlay, Ph. D., P. V. Remsen, Esq., T. M. Clark, Esq., and Professor Bassett.

Circulars to be obtained at the School, or at the residence of the Principal, 89 Fourth street.

Prof. P. ABADIE, Principal.

The undersigned, having attended and taken part in the Examination of the pupils of this Institution, on Thursday, July 18th, 1862, beg leave to express their entire satisfaction at the results. The Scholars gave evidence of thorough training on the part of their Instructors, and of their own diligent application to study—their answers betokening not merely a recollection, but an understanding of what they had learned.

In the Senior Department, after a protracted and close examination, the Committee decided to bestow the Gold Medal upon Miss ANN ELIZA MICHAELS, as the best Scholar in the branches therein taught.

In the Academic Department they have regarded Miss JULIA W. STARR, as worthy of a similar mark of distinction.

All, without exception, acquitted themselves with credit. Those, to whom the Committee have decided to award diplomas, are MASSES CORNELIA REMSEN, CLARA PITTMAN, MARGARETTA BONNEL, MARY ANN WOODGATE, EMILY ACKER and MARGARET ACKER.

EXAMINING COMMITTEE.—Rev. CHAR. REYNOLDS, Rev. SAM'L W. SAYRES, Rev. HARVEY HUSTED, PETER V. REMSEN, THOS. M. CLARK.

# OUR ILLUSTRATED JOURNALS.

**FOWLERS AND WELLS** publish the following **PERIODICALS**. They have an aggregate circulation of about **ONE HUNDRED THOUSAND COPIES**. These Popular and Professional **SERIALS** afford an excellent opportunity for bringing before the Public with Pictorial Illustrations all subjects of interest, Physiological, Educational, Agricultural, Mechanical, and Commercial.

**THE WATER-CURE JOURNAL, AND HERALD OF REFORMS.** Devoted to Hydropathy, its Philosophy and Practice, to Physiology and Anatomy, with illustrative engravings, to Dietetics, Exercise, Clothing, Occupations, Amusements, and those Laws which govern Life and Health. Published Monthly, in convenient form for binding, at One Dollar a Year in advance.

The Water-Cure Journal holds a high rank in the science of health; always, ready straightforward, and plain-spoken, it unfolds the law of our physical nature, without any pretensions to the technicalities of science, but in a form as attractive and refreshing as the sparkling element of which it treats. We know of no American periodical which presents a greater abundance of valuable information on all subjects relating to human progress and welfare.—[New-York Tribune.

This is, unquestionably, the most popular Health Journal in the world.—[New-York Daily Evening Post.

Every man, woman, and child who loves health; who desires happiness, its direct result; who wants to "live while he does live," "live till he dies," and really live, instead of being a mere walking corpse, should become at once a reader of this Journal, and practice its precepts.—[Fountain Journal.

**THE AMERICAN PHRENOLOGICAL JOURNAL.** A Repository of Science, Literature, and General Intelligence; Devoted to Phrenology, Physiology, Education, Magnetism, Psychology, Mechanism, Agriculture, Horticulture, Architecture, the Arts and Sciences, and to all those Progressive Measures which are calculated to Reform, Elevate, and Improve Mankind. Illustrated with numerous portraits and other engravings. A beautiful Quarto, suitable for binding. Published Monthly, at one Dollar a Year in advance.

This is the only work of the kind in the country; indeed, the editors, from their intimate and profound knowledge of the science of Phrenology, are the only persons who could make up a work of such varied and singular excellence. It may be termed the standard authority in all matters pertaining to Phrenology, while the beautiful typography of the Journal, and the superior character of the numerous illustrations, are not exceeded in any work with which we are acquainted.—[Modal American Courier, Philadelphia.

A Journal containing such a mass of interesting matter, devoted to the highest happiness and interests of man, written in the clear and lively style of its practised editors, and afforded at the "ridiculously low price" of one dollar a year, must exceed in running up its present large circulation [50,000 copies!] to a much higher figure.—[New York Tribune.

**THE ILLUSTRATED HYDROPATHIC QUARTERLY REVIEW.** A New Professional Magazine, devoted to Medical Reform, embracing articles by the best writers, on Anatomy, Physiology, Pathology, Surgery, Therapeutics, Midwifery, etc., Reports of Remarkable Cases in General Practice, Criticisms on the Theory and Practice of the various Opposing Systems of Medical Science, Reviews of New Publications of all Schools of Medicine, Reports of the Progress of Health Reform in all its Aspects, etc., etc., with appropriate illustrations. # THE UTILITY OF PHRENOLOGY.

---

**PHRENOLOGY** teaches us our natural capacities, our right and wrong tendencies, the most appropriate avocations, and directs us how to attain self-improvement, happiness, and success in life.

By teaching parents, *specifically*, the dispositions and characteristics of their children, **PHRENOLOGY** shows how to instruct, develop, and govern them, and for what profession, business, or pursuit in life to prepare them.

**PHRENOLOGY** enables us to read the characters and motives of our "fellow-men" at a glance, to judge reliably whom to trust, and with whom to form intimate business or social relations, and becomes at once the most delightful, useful, and interesting study which can possibly engage our attention.

By showing the reciprocal relations between "Body and Mind," **PHRENOLOGY** enables us to retain a proper balance between our physical and mental functions, to restore lost equilibrium, and to treat successfully the various phases of insanity and other disorders.

A correct analysis of the **PHRENOLOGICAL ORGANS** shows each individual wherein he is deficient, and wherein excessively developed, and *how* to cultivate or restrain those faculties necessary, to obtain a harmonious, uniform, and consistent Intellectual, Moral, and Social Disposition.

**WRITTEN DESCRIPTIONS** of character are becoming every day more and more in demand, to such an extent, indeed, that we are obliged to employ Phonographic Reporters for this purpose. This method enables us to impart, in a permanent form, to each person, advice relative to health, habits, balance of Temperament, the culture of weak faculties, and the training of strong ones, etc., much better than can be done in any other way. These **MENTAL** portraits, as guides to self-culture, are invaluable.

---

**THE PHRENOLOGICAL CABINET** contains Busts, and Casts from the heads of the most distinguished men that ever lived; also Skulls, human and animal, from all quarters of the globe—including Egyptian Mummies, Pirates, Robbers, Murderers and Thieves; also numerous Paintings and Drawings of celebrated Individuals, living and dead. Strangers and citizens will find this Cabinet or Museum, 308 Broadway, N. Y., an agreeable place to visit.

---

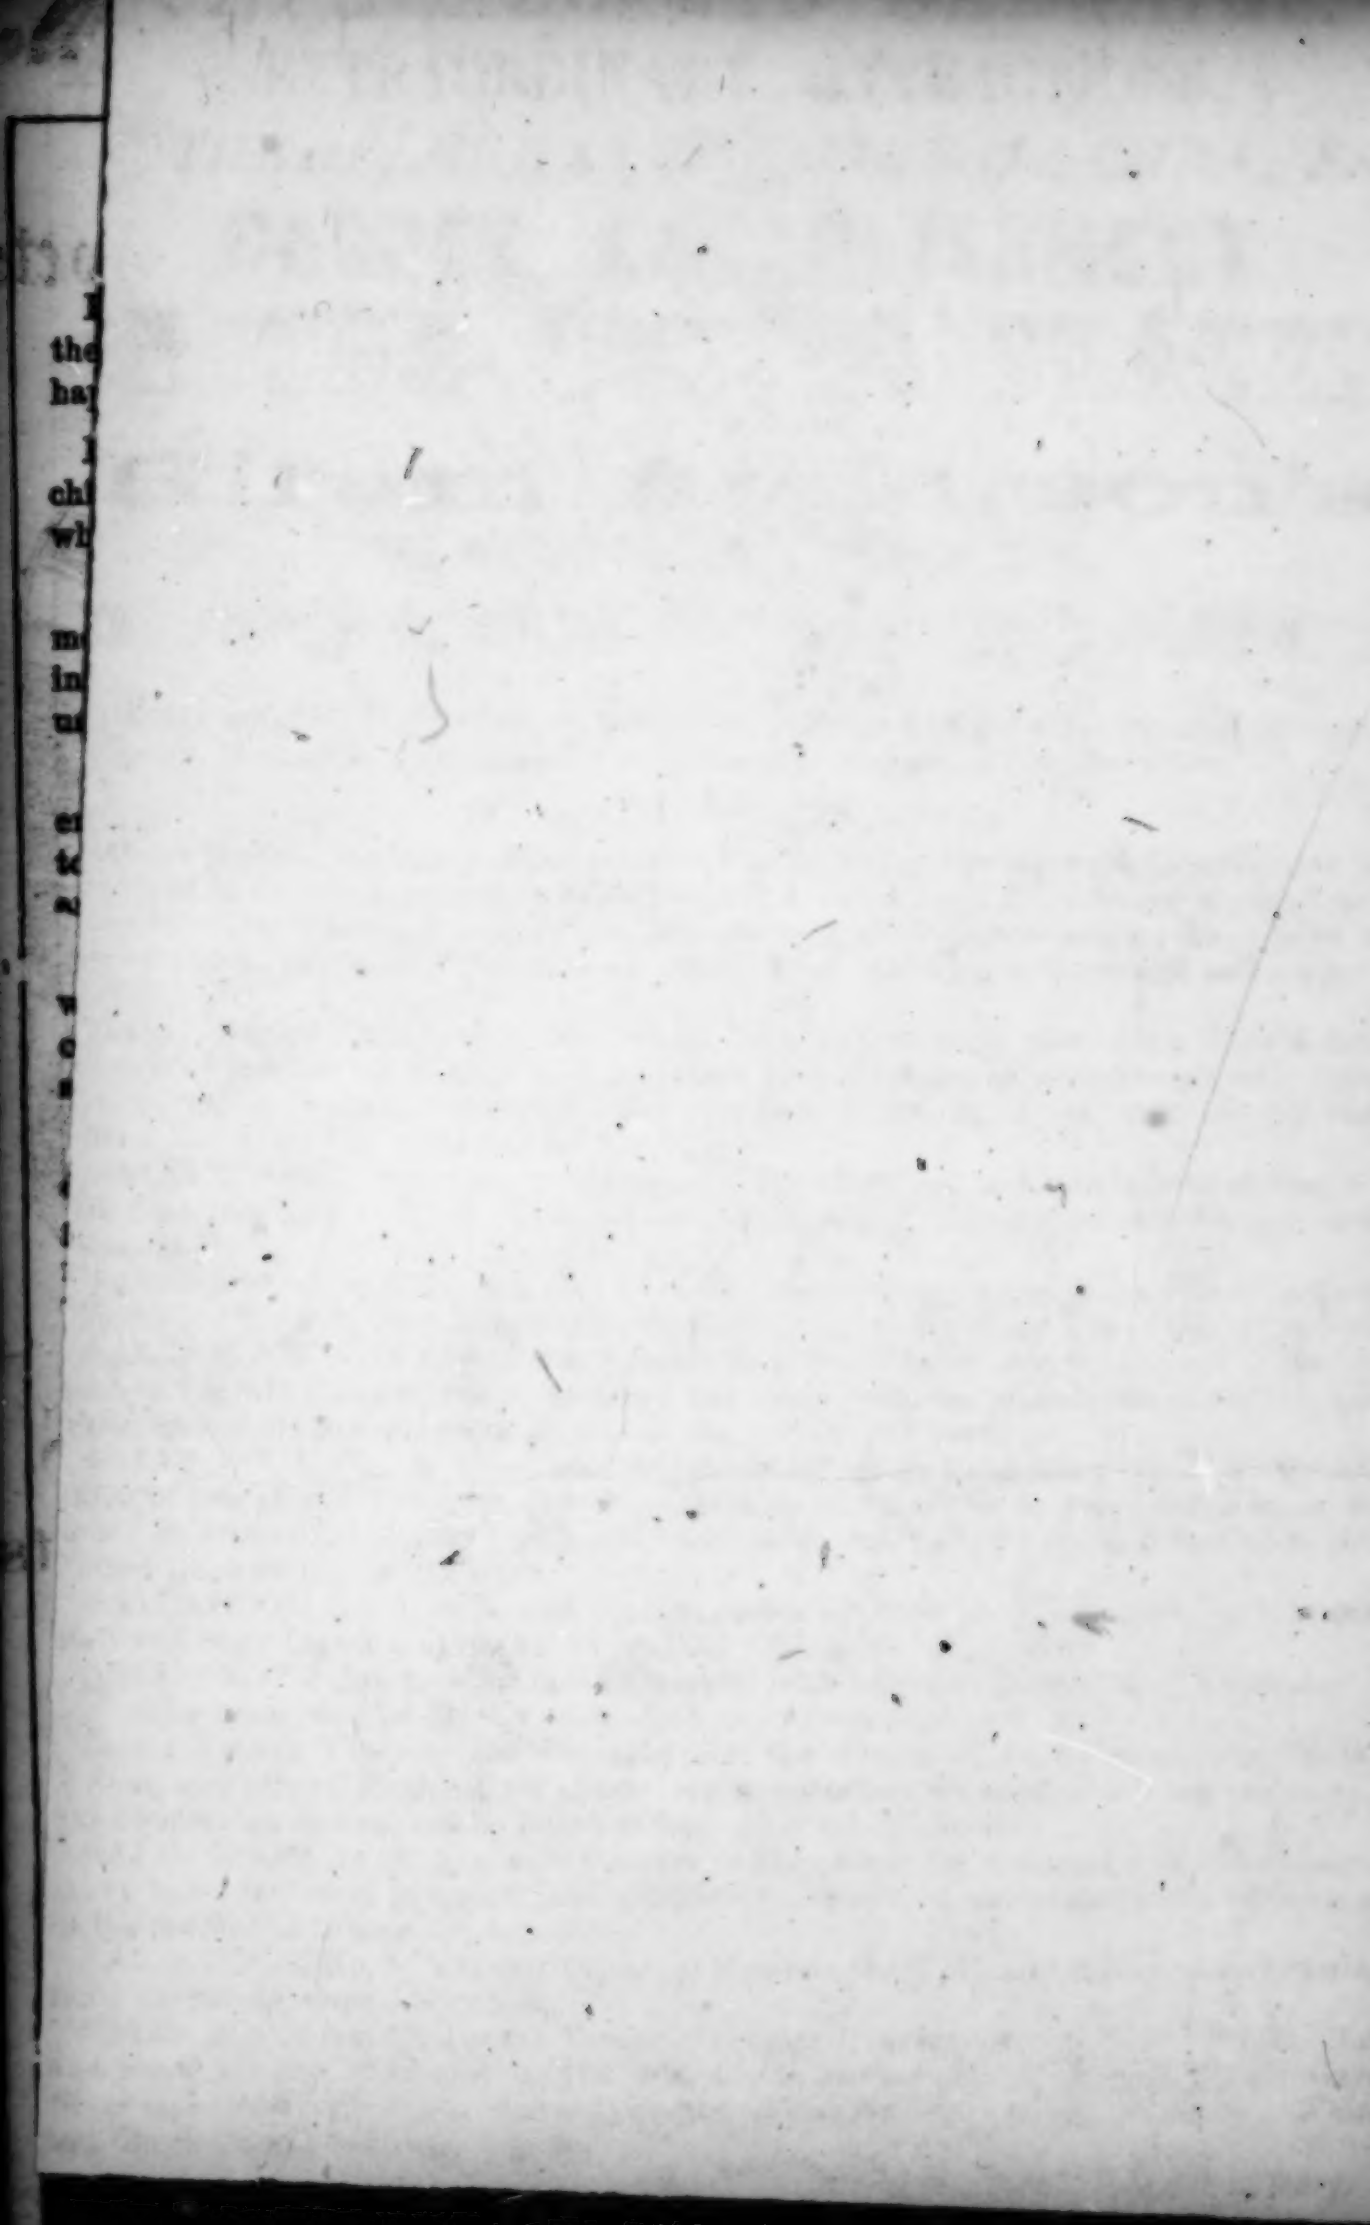

**PHRENOLOGICAL EXAMINATIONS AND ADVICE**, with Charts and full Written Descriptions of Character, given, when desired, at our rooms No. 308 Broadway, New York.

**FOWLERS AND WELLS** have all works on Phrenology, Physiology, Phonography, Hydropathy, and the Natural Sciences generally.

In the year closing December, 1852, there were 254 Bibles and 67 Testaments given to destitute families. As the result of the last exploration, it is known that about 1-5th of the families in Williamsburgh and vicinity are still destitute of the Scriptures, and because they prefer to be so. 5147 families were visited, and 1035 families were left without the word of God, for reasons which throw the responsibility of their destitution upon themselves.

In 1853, about 150 Bibles and 875 Testaments were given by the Missionary Society.

### The Williamsburgh City Missionary Society.

[Organized March 20th, 1853.]

OFFICERS.—Henry McKinstry, President,  
Several Gentlemen of different Christian denominations, Vice Presidents.

J. W. Bulkley, Secretary.

H. P. Freeman, Treasurer.

**MISSIONARIES.**—Rev. Noah Coe, No. 12 South 9th street.  
Rev. William H. Johnson, South 3d st.,  
between 3d and 4th streets.

**OBJECT**—To provide religious instruction for the neglected and destitute, and to look into the temporal wants of the poor.

**THE BUSINESS** is done by a Board of Managers, consisting of the Pastors and a Lay Member of each of the Churches represented in the Society. All Evangelical Ministers of the Gospel in Williamsburgh, who are not Pastors, are Honorary Members of the Board.

**MEMBERS.**—All who contribute to the funds of the Society.

**THE PLATFORM** is broad enough for all that love the Savior and the souls of men to stand upon together. The Society now embraces in its organization, nine different denominations, and more than a dozen Churches.

"Behold, how good and how pleasant it is for brethren to dwell together in unity."—Psalms cxxxiii : 1.

**THE GENERAL RELIEF DEPARTMENT OF THIS SOCIETY**, was organized in October 1853, by the appointment of nine gentlemen as a Committee to supervise the whole matter of giving relief to the temporal necessities of the poor.

The Chairman of this Committee, the Rev. N. S. Prime, D. D., presented a Plan of operations, which was adopted and carried out with very important results during five months, commencing with November.

The principal agents of this Department, next to the Chairman, who gave his time to it without pecuniary reward, were the missionaries of the Society, and a band of christian women.

The poor were visited at their houses, and hundreds of families were supplied with plain provisions, and clothing, during the inclement season.

The City Missionary Society, with its Relief Department, has now become a permanent, as it is certainly a noble, charitable Institution.
